PLAINFIELD
 Among the beautiful spots near our village in this season of the year is the old cellar where the Hall house formerly stood. It is on land belonging to Edward Hall and is situated just east of the Bradford homestead (now owned by Herbert Tarbox), on the south side of the old stage road to Providence. This was the home of the great-grandparents of Edward Hall, a thicket of purple lilacs completely hides the old site and is loaded with beautiful flowers every spring. One son (who was called Old Capt. Hall 50 years ago) lived where Thomas Sweeney's cottage now stands and his sons were Capt. Edward Hall (who built and owned many of the houses of old Plainfield) and Capt. William Hall. The old cellar is on high ground and the view is worth the two miles walk from the village. There is also a good showing of garden lilies that must have been planted at least 100 years ago.

CLAIMS UNITED SHOE CO. VIOLATED ANTI-TRUST ACT
 In Purchase of Thomas G. Plant Patents and Business.

Boston, June 4.—A suggestion that the purchase of the Thomas G. Plant patents and shoe machinery business by the United Shoe Machinery company for \$6,000,000 was a violation of the Sherman anti-trust act was made today by Judge Putnam, justice in the federal court, where the United company is on trial as an alleged unlawful monopoly.

During the argument of Charles F. Choate, counsel for the company, Judge Putnam exclaimed: "If this does not spell desire to get rid of competition with Plant, I don't know what does. Here is Plant with the possibility of wide competition and he is bought out to stop competition. Isn't that a clear case under the Sherman act?"

Mr. Choate denied that the purchase was made for the purpose of destroying competition. He said that negotiations had been going on for some time before the purchase was effected and from this he argued that if the defendant had desired merely to prevent competition it would have bought Plant out at the first opportunity.
